This handbook provides the information nurses need when, where, and how they need it. Presented here is the information nurses and nursing students need to know about laboratory and diagnostic tests. This nursing focused handbook provides all of the information needed to understand how tests work, interpret their results, and provide quality patient care. It contains pretest, intratest, and post test sections. Tests and procedures are listed in alphabetical order by their complete name for quick reference. The integrated index allows fast searches by abbreviation, synonym, disease/disorder, specimen type, or test classification.
